Course Overview

If you're a beginner and want to learn C++ to start your coding journey, you're in the right place. This comprehensive course starts from the absolute basics and gradually builds up to exciting real-life coding projects.

The emphasis throughout is on practical lessons and analogies you can relate to. As you learn, you'll work your way through dozens of coding exercises that you can run from right inside your browser.

By the time you're done, you'll have a strong grasp of C++, one of the most in-demand programming languages in the world. You'll have gotten plenty of hands-on practice, and will be able to confidently write your own applications.

Contents

1. Introduction

- Who Should Take This Course?
- Terminologies Related to Programming
- A Bit About C++
- C++: A History
- Why Use C++?

2. Getting Started

- Your First C++ Program
- Printing Styles
- C++ Comments
- Challenge 1: Display Text on the Console
- Solution Review: Display Text on the Console
- Challenge 2: Display a Right-Angle Triangle
- Solution Review: Display a Right-Angle Triangle
- Quiz

3. Variables and Constants

- Introduction to Variables
- Variables in C++

- Identifiers in C++
- C++ Constants/Literals
- Challenge 1: Initialize a Variable and Overwrite its Value
- Solution Review: Initialize a Variable and Overwrite its Value
- Challenge 2: Swap the Values of Two Variables
- Solution Review: Swap the Values of Two Variables
- Quiz

4. Data Types and Input

- Data Types
- Primitive or Fundamental Data Types
- Data Type Modifiers
- Type-Casting
- Strings and Escape Sequences
- C++ User Input
- Challenge 1: Convert Double Value into Integer
- Solution Review: Convert Double Value into Integer
- Quiz

5. Operators

- Introduction to Operators
- Arithmetic Operators
- Assignment and Compound Assignment Operator
- Relational Operators
- Logical Operators
- Bitwise Operators
- Precedence and Associativity
- Challenge 1: Find the Previous Alphabet
- Solution Review: Find the Previous Alphabet
- Challenge 2: Calculate Hours, Minutes, and Seconds
- Solution Review: Calculate Hours, Minutes, and Seconds
- Challenge 3: Calculate the Area of the Sphere
- Solution Review: Calculate the Area of the Sphere
- Quiz

6. Conditional Statements

- Introduction to Conditional Statements
- if Statement
- if-else Statement
- else-if Statement
- switch Statement
- Conditional Operator
- Challenge 1: Find the Person with the Highest Salary
- Solution Review: Find the Person with the Highest Salary
- Challenge 2: Check if the Given Character is an Alphabet
- Solution Review: Check if the Given Character is an Alphabet
- Challenge 3: Display Day of the Week
- Solution Review: Display Day of the Week
- Quiz

7. Loops

- Introduction to Loops
- while Loop in C++
- do-while Loop
- for Loop
- Infinite Loop
- Nested Loop
- break Statement
- continue Statement
- Challenge 1: Calculate the Power of a Number
- Solution Review: Calculate the Power of a Number
- Challenge 2: Find out if the Given Number is Prime
- Solution Review: Find out if the Given Number is Prime
- Challenge 3: Convert Decimal Number to Binary
- Solution Review: Convert Decimal Number to Binary
- Challenge 4: Find out if the Given Number is a Palindrome
- Solution Review: Find out if the Given Number is a Palindrome
- Quiz

8. Functions

- Functions in C++
- Declaring a Function
- Defining a Function
- Calling a function
- C++ Function Parameters
- Pass by Value in Functions
- Pass by Reference in Functions
- Scope of Variable
- Overwriting the Value of the Global Variable
- Challenge 1: Convert Digits from 0 to 5 into Text
- Solution Review: Convert Digits from 0 to 5 into Text
- Challenge 2: Set the Smallest Number to -1
- Solution: Set the Smallest Number to -1
- Challenge 3: Design a Calculator
- Solution Review: Design a Calculator
- Quiz

9. Recursion

- What is Recursion?
- Structure of Recursive Program
- Calculate Factorial of a Number
- Recursion vs Iteration
- Challenge 1: Calculate the Power of a Number Recursively
- Solution Review: Calculate the Power of a Number Recursively
- Challenge 2: Count the Digits in a Number Using Recursion
- Solution Review: Count the Digits in a Number Using Recursion
- Challenge 3: Calculate the nth Fibonacci Number using Recursion
- Solution Review: Calculate nth Fibonacci Number Using Recursion
- Quiz

10. Arrays

- Introduction to Arrays

- Creating an Array
- Accessing an Array
- Arrays and Functions
- Creating a Two-Dimensional Array
- Accessing Two-Dimensional Arrays
- Challenge 1: Calculate the Average Marks of a Class
- Solution Review: Calculate the Average Marks of a Class
- Challenge 2: Left Rotate Array
- Solution Review: Left Rotate Array
- Challenge 3: Sort Elements of an Array in Descending Order
- Solution Review: Sort Elements of an Array in Descending Order
- Challenge 4: Add Main Diagonal Elements in a Matrix
- Solution Review: Add Main Diagonal Elements in a Matrix
- Challenge 5: Multiply Two Matrices
- Solution Review: Multiply Two Matrices
- Quiz

11. Pointers

- Computer Memory
- Variables and Memory
- Address-of Operator
- What is Pointer?
- Dereferencing Operator
- Function and Pointers
- Challenge 1: Calculate the Area of a Rectangle Using Pointers
- Solution Review: Calculate the Area of a Rectangle Using Pointers
- Challenge 2: Calculate the Sum and Absolute Difference
- Solution Review: Calculate the Sum and Absolute Difference
- Quiz

12. Dynamic Memory Allocation

- Types of Allocation
- Allocation of Dynamic Memory
- Deallocation of Dynamic Memory
- Dynamic Arrays
- Challenge 1: Set the Odd Elements in a Dynamic Array to -1
- Solution Review: Set the Odd Elements in a Dynamic Array to -1
- Challenge 2: Delete an Element at a Specific Index
- Solution Review: Delete an Element at a Specific Index
- Quiz

13. Structures

- Introduction to Structure
- Defining Structure in C++
- Declaring Structure Variables in C++
- Initializing and Accessing Members of a Structure Variable in C++
- Array of Structures
- Structure and Functions
- Structure and Pointers
- Challenge 1: Subtract Two Complex Numbers
- Solution Review: Subtract Two Complex Numbers
- Challenge 2: Calculate Overall Percentage of Student's Marks

- Solution Review: Calculate Overall Percentage of Student's Mark
- Challenge 3: Account Number of Customers with Balance < \$500
- Solution Review: Account Number of Customers with Balance < \$500
- Quiz

14. Mini Projects

- Exercise: Convert a Grayscale Image into Black and White
- Solution Review: Convert a Grayscale Image into Black and White
- Project 1: Hangman Game
- Solution Review: Hangman Game

15. Conclusion

- Conclusion

16. Appendix

- Anatomy of a "Hello World!" Program
- Compiling a C++ program
- Keywords in C++

ASSESSMENT 1

- 📅 C++ Exam
